About Me

Innovative Data Scientist and Community Lead with a dual background in Computer Science and Mechanical Engineering. Proven track record in deploying scalable ML pipelines, optimizing RAG architectures for AI agents, and solving complex environmental challenges. Recognized as a Top 100 Zindi Data Scientist globally. Passionate about leveraging AI to drive business growth and fostering technical ecosystems through leadership at Google Developer Groups (GDG).

TECHNICAL SKILLS

- **Core Competencies:** Machine Learning, Computer Vision, NLP, RAG Pipelines, Data Visualization, ETL.
- **Languages & Frameworks:** Python, PyTorch, YOLO, OpenCV, NLTK, LLMs (Large Language Models).
- **DevOps & Cloud:** Docker, Kubernetes, MLflow, Google Cloud Platform (GCP), CI/CD.
- **Soft Skills:** Technical Leadership, Community Management, Public Speaking, Agile Collaboration.

PROFESSIONAL EXPERIENCE

Data Scientist at AirQo

- Spearheaded the expansion of air quality monitoring coverage across Africa, scaling from limited sensor-based cities to continent-wide coverage using satellite integration.
- Developed and deployed high-precision PM2.5 prediction models, integrating satellite data to fill sensor gaps.
- Designed scalable Machine Learning pipelines and optimized existing models to improve inference speed and accuracy.
- Enhanced data visualization dashboards, significantly improving platform usability for stakeholders and policymakers.

AI Agent Intern at NeuralSeek

- Engineered and optimized intelligent AI agents, focusing on the refinement of Retrieval-Augmented Generation (RAG) pipelines.
- Advanced LLM performance through rigorous prompt engineering and the development of automated evaluation workflows.
- Contributed to the architecture of scalable agents, streamlining performance across diverse enterprise use cases.

LEADERSHIP & COMMUNITY IMPACT

Google Developer Groups (GDG) on Campus, UofK | 2025— Present

- **Strategic Leadership:** Leading the university chapter to foster a thriving developer ecosystem, managing the core team and overseeing all chapter operations.
- **Partnerships:** Initiated and established a strategic partnership between GDG UofK and Code4Sudan to collaborate on open-source tech solutions.
- **Operations:** Managed the end-to-end recruitment process for volunteer teams, including application review and interviewing, utilizing the Bevy platform for community management.
- **Mentorship:** Formerly served as Technical Lead (2022–2025), delivering workshops on Machine Learning, Computer Vision, and NLP to hundreds of students.

AI Bootcamp (UofK & Open Arab University) | Content Creator

- Produced comprehensive educational content for beginners, including video modules on "Pandas for Data Manipulation" and "Tackling ML Problems."
- Democratized access to AI education by breaking down complex theoretical concepts into practical, hands-on tutorials.

HONORS & AWARDS

- **Top 100 Global Rank (Zindi):** Currently ranked in the top 1% (Rank ~1,800) out of 200,000+ data scientists globally.
- **Competition Winner:** Secured 1 Gold, 3 Silver, and 6 Bronze medals on Zindi for solving complex predictive challenges.
- **Kaggle Expert:** Achieved Expert Tier with 3 Bronze ,1 Silver medals in global competitions.
- **Top Ranked Data Scientist:** Recognized as the former #1 Data Scientist in Sudan on the Zindi platform.

Education History

University of Rwanda : Computer Science
Year of Entry: 2024 (Undergraduate)

University of Khartoum
Mechanical Engineering
Year of Entry: 2021 (Enrollment paused in 2024)
